Reporting Y6 TA in Integris Assessment
Stage 7: KS2 Quick Analysis

CBict.org
Supporting Schools Curriculum & Administration in Central Bedfordshire and Beyond

Go to **Modules > Assessment > Analysis > Go to Quick Analysis** > in the left hand pane, you need to look for the admin user's folder (i.e. who set up the markbooks) and locate and open (+) the **KS2 2019** folder > then select the **NC Key Stage 2 2019** markbook.

NOTE: you will only be able to view complete KS2 **TA** data for **Writing** and **Science** when selecting the NC Key Stage 2 markbook.
When KS2 Test data is imported into Integris (from 9/7/19), test marks and outcomes (AS/NS) can also be graphed by selecting the appropriate columns from the *Assessment Items* list

*You will then see the following graph based on the **Assessment items** (column) for English with Reading (**KS2 En Rea TA**) listed as the first column. The graph will show only the data as entered – note: Reading TA data is only relevant for BLW and PK1-6 values and the bar column will show this accordingly.*

o **Click on KS2 EN Wri TA in the Assessment items list to switch the display to Writing TA**

You should now see bar columns for each enrolled group assigned to the NC Key Stage 2 2019 markbook – ie. Class(es) and/or one for the Year group (Total).

o **Hover** over any part of the graph column to see the count/% figures
o View the table beneath the graphs for further statistical detail
o Click on any of the *Subject* tabs at the top to view a different subject

o **By clicking on any of the bar columns** (e.g.a class)– you will see displayed graphs for each of the following **groups** within the group selected : **Gender; SEN Stage; EAL; EverFSM (FSM PP only); Pupil Premium-Any Ever (all PP)**
o Select to view data as *Value* or *Percentage*
o If you have more than one class, switch class under the *Enrolled Group* menu
o Click *Back* to return to main graphs and select another bar
o Each graph can be exported separately (through the **EXPORT** menu) – either as data into a csv (spreadsheet); data into a table (HTML) or as an image (PNG)
