# On schedule. On time. On-line.

## Take the hassle out of parents' evenings forever!

Our easy to use online booking system enables you to set up on-site or 'virtual' parents' evenings, tutor evenings, options evenings and more so that parents can book their own appointments quickly and easily.

## The original and best parents' booking system!

- ✔ **Parents' evenings organised in minutes**
- ✔ **Video meetings with parents**
- ✔ **In person or telephone meetings**
- ✔ **Parents' evenings that run to schedule**
- ✔ **Happy parents!**
- ✔ **Happy staff!**

Of course, there's more to it than that - for example, features for creating reports, automatically chasing parents who haven't booked, and communication tools to facilitate parent and teacher dialogues in advance of meetings are all part of the service!

Instead of the traditional methods - queues of children in class or huddles of parents around sign-up sheets - parents visit the website and select their own appointment times from those available. Teachers then check their schedule in advance and prepare for their meetings.

## Simple for schools

**We know that no two schools are the same, so our system is completely flexible to suit your needs.**

Split classes, shared teachers, differing appointment time needs, evenings spread across more than one day? All these are catered for easily.

Additionally, using the video meetings functionality means that teachers and parents are automatically moved to their next appointment according to the schedule - no more evenings over-running or parents not getting to see all the teachers they had booked!

## Simple for admin staff

**No more having to organise appointments, replies or chase parents and pupils using paperslips.**

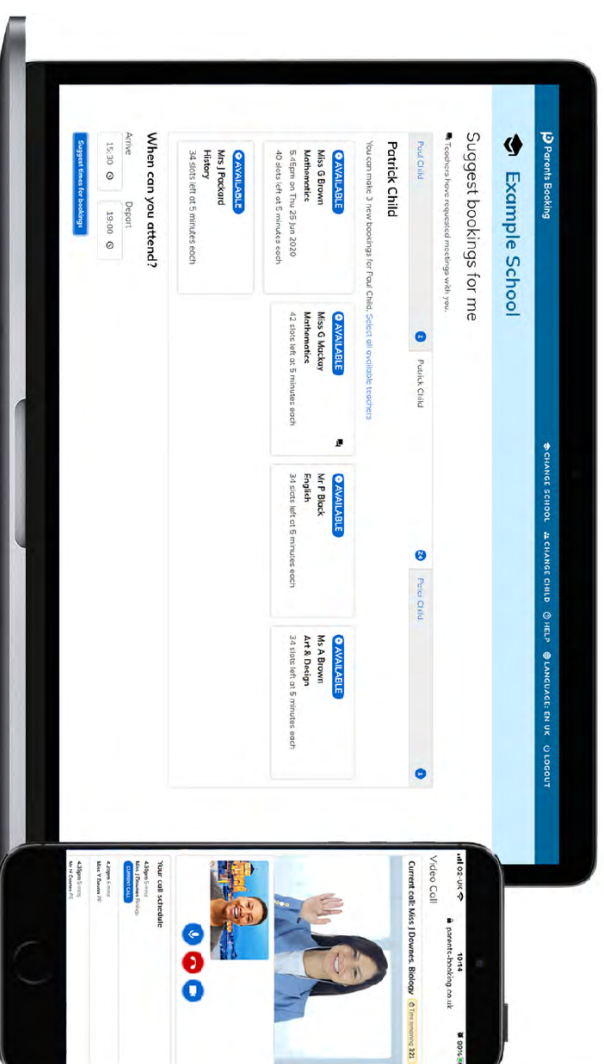

Set up the evening in minutes and parents can simply book their own choice of appointments online at their convenience. Classes, pupils, teachers and parents' data all integrated from your school MIS means no spreadsheets to complete or upload!

## Simple for teachers

**Teachers can log in, see their appointment schedules, block out times or extend their availability easily.**

The 'notes' feature allows them to add a note to the appointment to let parents know about any specific item they wish to discuss.

Teachers no longer have to be in school all evening - they can video meet parents whilst working from home, improving their well-being and their work-life balance!

## Simple for parents

**No extra software needed. Parents simply log on using their browser and choose the appointment times they want from the slots available.**

Using the 'Suggest appointments for me' option allows them to book all their appointments in one easy go using our booking wizard!

If they have a concern to discuss, parents can add a note to the booking so that the teacher is aware in advance and can prepare accordingly.

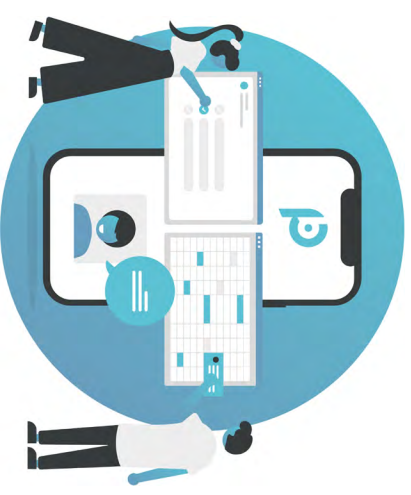

## Simple for clubs & events too!

**Run your school's event and club booking online by adding the Event and Club Booking module.**

Ideal for student performances, clubs, meetings, talks etc., this module allows parents to book/buy tickets to or places at school events or sign their children up to clubs.

### **The same simple system**

Combining event and club booking with Parents Booking is easier for everyone! Parents have one log in and schools manage everything from one admin area.

# Video meetings from home. Sorted.

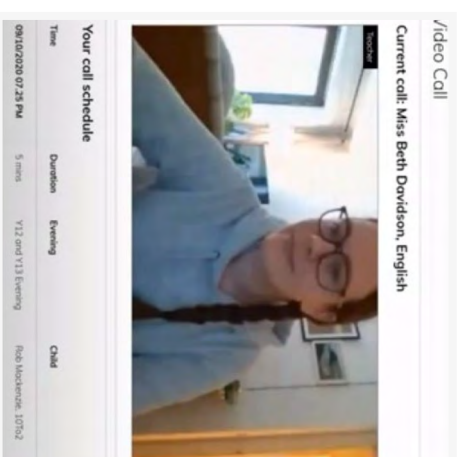

**Parents' evenings using video meetings? Who would have even considered 'virtual parents' evenings' before the pandemic?**

Now, everyone uses and is familiar with video calls - whether for business, clubs or simply to keep in touch with family and friends.

**Schools can choose to have video meetings with parents instead of on-site meetings - essential during the pandemic but equally beneficial going forwards!**

Teachers and parents can join the meeting from anywhere that they have internet access, on any device. Split families can join meetings from different locations. Working parents can join video meetings in their breaks.

# The future is here. The future is video!

**Many schools used video meetings during the recent pandemic - with great success.**

However, there are so many benefits to using video calls instead of traditional parents' meetings that many say they will not be going back to 'the old way'...

- ✔ Appointments are made as usual
- ✔ Evenings run exactly to schedule
- ✔ Increases parental attendance and inclusion
- ✔ Ideal for social-distanced meetings
- ✔ Multiple teachers and parents can join the meeting
- ✔ No need for 'walking-time' between appointments
- ✔ 1-to-1 meetings can be set up for selected parents if needed
- ✔ Increases privacy for parents and staff, with no fear of being overheard
- ✔ Brings huge time saving with no need for hundreds of individually set up video calls to be made

*This was our first experience of using parents booking, I think it was brought due to COVID and social distancing & bubbles. But to be honest, I don't think (and hope) we ever need to look back to the 'traditional' in person set up. This was easier than the logistics and operations of a traditional parents evening, it was so relaxed.*

*Excellent system which is so easy to use... Video conferencing has made an enormous difference in this last, very difficult, session. Allowing parents to book appointment times that suit them, without time being wasted between appointments, is the only way forward.*

*Great time saver!*

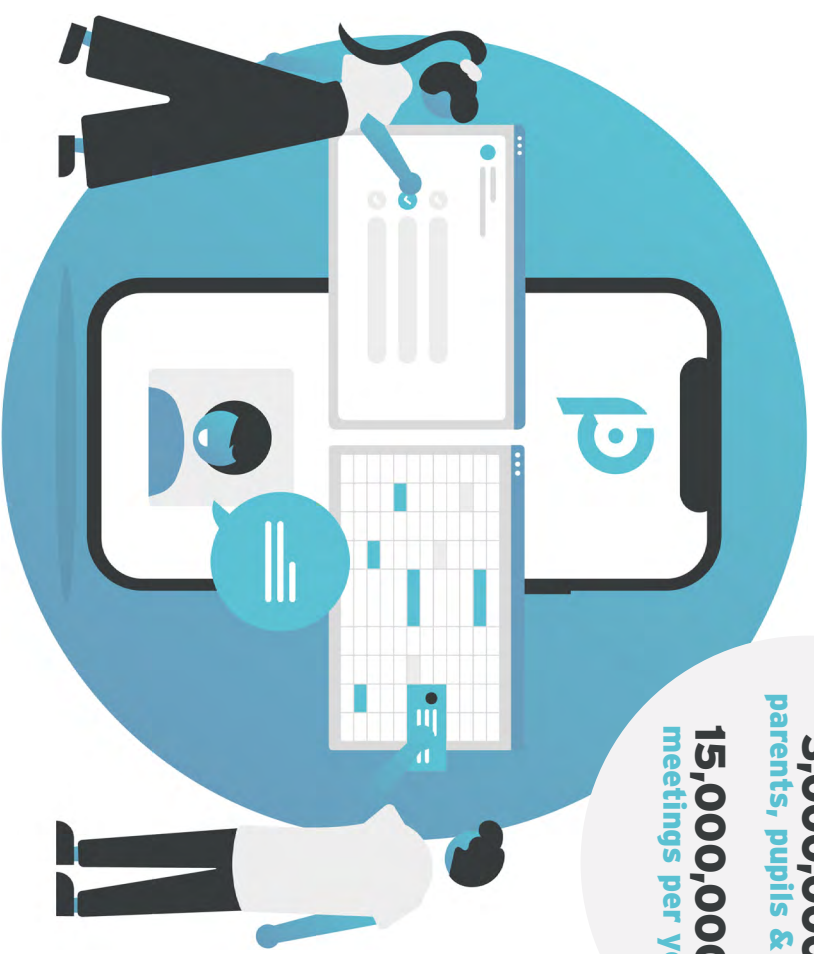

*Using the video chat saved us tonnes of time and was super easy and convenient to be able to run my meetings from home.*

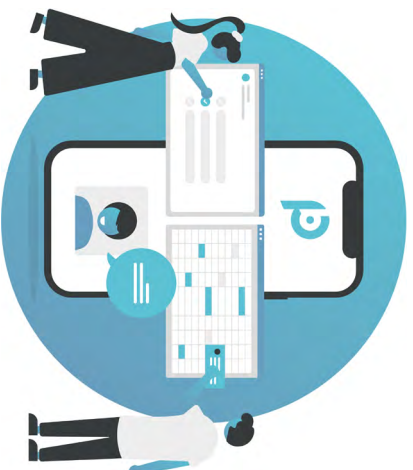

# Exceptional Value. Sorted.

## The best parents' evening possible. Sorted.

- ✔ Parents' evenings set up in minutes
- ✔ Integration with your school's MIS database
- ✔ Video meetings with parents
- ✔ Manage split or shared classes
- ✔ Teachers can manage their availability
- ✔ Telephone and email support
- ✔ Happy schools, happy parents, happy staff!
